Harbour News - dredging

Entrance Channel - a new dredging programme started in June and has proved hugely successful in the amount of sand and aggregate removed. To date the eastern channel flank has been the focus, to both widen and deepen the channel. This programme will continue in accordance with the Dredging Protocol for the Harbour as agreed by the IoW Council.

Duver Marina - our autumn programme of inner Harbour dredging is due to start on 1st October, to reinstate the depth of water along the visitors' Duver pontoon. Work will take approximately 3 weeks, depending on weather and operational considerations.

During the dredging work there will be a reduced amount of berthing space available and we apologise for any inconvenience this may cause. We hope to be able to provide visitor berthing as from first week in November - please contact the Berthing Office for up to date information.

Winter Berthing Offer

As a result of the dredging work at the Duver Marina, our winter walk-ashore pontoon berthing offer will be available from 8th November 2021 to 31st March 2022. Prices, from £415, are inclusive of VAT and Harbour Dues (electricity extra). Full details on the Harbour website. Bookings now being taken - please apply to: office@bembridgeharbour.co.uk

Thank you to our staff team

At the end of September we will bid farewell to most of our fabulous seasonal staff, some of whom are returnees from previous years and some new to us and to the Harbour. All have done a tremendous job in supporting our small permanent team throughout what has been a hugely busy summer. We are very proud of the hard work and high level of customer service provided by both the Harbour and Bembridge Boat Storage teams.

Bembridge Harbour Facebook page

We posted a spectacular photo of dolphins at the Needles recently which was shared a record 314 times (a snippet above)! If you LIKE and SHARE our page during any given month, you are entered into a draw to win a night's free visitor berth at the Duver Marina (provided your privacy settings allow us to identify you that is ...)
